### Certificated Substitute Payroll Rates Long Term

**Assignments**-10 consecutive days. A substitute teacher shall receive the long-term rate after 10 consecutive days. If a day is missed the 10 “consecutive” days are broken, therefore foregoing the long-term substitute pay. Unless the substitute has the sick hours to cover for that absence and turns in the paid sick leave request by the last day of the pay period. These 10 consecutive days must be maintained throughout the duration of the long-term assignment or through each pay period, if they break it after the initial 10 days then the remaining days will be paid at the regular daily rate.

**Paid sick leave request**-Substitute teachers will only be approved for the sick time they have earned. HR will review the sick leave request and verify the available time. If an employee submits sick leave request for less than 7 hours, they shall be paid at an hourly rate depending on the assignment.
