INDEPENDENT AUDITOR'S REPORT

Governing Board
Coachella Valley Unified School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Coachella Valley Unified School District (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *Standards and Procedures for Audits of California K-12 Local Education Agencies 2013-2014*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Coachella Valley Unified School District, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Change in Accounting Principles

As discussed in Notes 1 and 15 to the financial statements, the District has elected to change its method of accounting for cost of debt issuance as prescribed by GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis on pages 5 through 14, and budgetary comparison and other postemployment benefit information on pages 64 and 65, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Coachella Valley Unified School District's basic financial statements. The accompanying supplementary information such as the combining and individual nonmajor fund financial statements and Schedule of Expenditures of Federal Awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and the other supplementary information as listed on the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying other information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2014, on our consideration of the Coachella Valley Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Coachella Valley Unified School District's internal control over financial reporting and compliance.

This section of Coachella Valley Unified School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2014. Please read it in conjunction with the District's financial statements, which immediately follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Financial Statements

The financial statements presented herein include all of the activities of the Coachella Valley Unified School District and its component units using the integrated approach as prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities and business-type activities separately. These statements include all assets of the District (including capital assets) as well as all liabilities (including long-term obligations). Additionally, certain eliminations have occurred as prescribed by the statement in regards to interfund activity, payables, and receivables.

Governmental and the *Business-Type Activities* are prepared using the economic resources measurement focus and the accrual basis of accounting.

The *Fund Financial Statements* include statements for each of the three categories of activities: governmental, proprietary, and fiduciary.

The *Governmental Funds* are prepared using the current financial resources measurement focus and modified accrual basis of accounting.

The *Proprietary Funds* are prepared using the economic resources measurement focus and the accrual basis of accounting.

The *Fiduciary Activities* are prepared using the economic resources measurement focus and the accrual basis of accounting.

Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach.

The Primary unit of the government is the Coachella Valley Unified School District.

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2014

REPORTING THE DISTRICT AS A WHOLE

The Statement of Net Position and the Statement of Activities

The *Statement of Net Position* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include all assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. Net position is the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources, which is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its *financial health* is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's *operating results*. Since the governing board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the *Statement of Net Position* and the *Statement of Activities*, we separate the District activities as follows:

Governmental activities - Most of the District's services are reported in this category. This includes the education of kindergarten through grade twelve students, adult education students, the operation of child development activities, and the on-going effort to improve and maintain buildings and sites. Property taxes, State income taxes, user fees, interest income, Federal, State and local grants, as well as general obligation bonds, finance these activities.

Business-type activities - The District charges fees to help it cover the costs of certain services it provides. The District's food service program is included here.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2014

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

Governmental funds - Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

Proprietary funds - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the *Statement of Net Position* and the *Statement of Revenues, Expenses, and Changes in Fund Net Position*. In fact, the District's enterprise funds are the same as the business-type activities we report in the government-wide financial statements but provide more detail and additional information, such as cash flows, for proprietary funds. We use internal service funds (the other component of proprietary funds) to report activities that provide supplies and services for the District's other programs and activities - such as the District's Self-Insurance Fund. The internal service funds are reported with governmental activities in the government-wide financial statements.

THE DISTRICT AS TRUSTEE

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or *fiduciary*, for funds held on behalf of others, like our funds for associated student body activities, scholarships, employee retiree benefits and pensions. The District's fiduciary activities are reported in the *Statements of Fiduciary Net Position*. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2014

FINANCIAL HIGHLIGHTS OF THE PAST YEAR

After five years of difficult economic conditions, the District was able to maintain a strong ending balance in the combined General Fund. This resulted from careful control of expenditures and cooperative agreements with employee bargaining units. As the economic outlook improves, the District anticipates significant revenue growth over the next few years, enabling the District to eliminate its structural deficit.

The District was able to begin implementing a unique and innovative program for the inclusion of mobile-technology for students. In support of this initiative, the Governing Board approved placing a ballot initiative on the November 2013 ballot that improves the wireless computer network infrastructure of the District, and provides mobile devices for all District students. This initiative passed with strong community support at a 65 percent final approval rate. Full implementation of this project is expected to be completed in the 2014-2015 year.

These funds will be used to build a new community educational support facility at the District office complex. This will include a new transportation facility that will greatly expand the use of clean CNG buses.

As has been the practice of the District, Coachella Valley Unified School District does not reallocate categorical program carryover from the prior year until the financial records for the prior year are closed. Consequently, the original budget may not include all available revenues or expenditures related to categorical carryover, while the subsequent budget revisions and actual results reflect these carryovers.

THE DISTRICT AS A WHOLE

Net Position

The District's net position was \$231.3 million for the fiscal year ended June 30, 2014. Of this amount, \$(9.9) million deficit was unrestricted. Restricted net position are reported separately to show legal constraints from debt covenants grantors, constitutional provisions and enabling legislation that limit the governing board's ability to use those net position for day-to-day operations. Our analysis below, in summary form, focuses on the net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

Changes in Net Position

The results of this year's operations for the District as a whole are reported in the *Statement of Activities* on page 16. Table 2 takes the information from the Statement, rounds off the numbers, and rearranges them slightly so you can see our total revenues for the year.

Governmental Activities

As reported in the *Statement of Activities* on page 16, the cost of all of our governmental activities this year was \$203.8 million. However, the amount that our taxpayers ultimately financed for these activities through local taxes was only \$38.8 million because the cost was paid by those who benefited from the programs (\$0.6 million) or by other governments and organizations who subsidized certain programs with grants and contributions (\$43.3 million). We paid for the remaining "public benefit" portion of our governmental activities with \$113.4 million in Federal and State unrestricted funds and with other revenues, such as interest and general entitlements.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2014

In Table 3, we have presented the cost and net cost of each of the District's largest functions - instruction, instructional-related activities, home-to-school transportation, other pupil services, general administration, plant services, facility acquisition and construction, interest on long-term obligations and all other functions. As discussed previously, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

Table 3

(Amounts in millions)

	<u>Total Cost of Services</u>		<u>Net Cost of Services</u>	
	<u>2014</u>	<u>2013</u>	<u>2014</u>	<u>2013</u>
Instruction	\$ 128.8	\$ 124.3	\$ 94.8	\$ 88.4

Other	3.7	0.5	2.5	(1.4)
Total	\$ 203.8	\$ 199.3	\$ 159.9	\$ 147.5

The overall change in the Total Cost of Services reflects measures the District has taken to reduce costs while economic difficulties persist.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2014

THE DISTRICT'S FUNDS

As the District completed this year, our governmental funds reported a combined fund balance of \$143.4 million, which is a decrease of \$21.8 million from last year.

Table 4

(Amounts in millions)	Fund Balance			
	July 1, 2013	Revenues	Expenditures	June 30, 2014
General Fund	\$ 17.6	\$ 177.5	\$ 177.9	\$ 17.2
Building Fund	95.8	5.9	27.3	74.4
Adult Education Fund	0.4	1.3	1.4	0.3
Deferred Maintenance Fund	1.0	0.4	0.8	0.6
Capital Facilities Fund	4.0	1.8	1.3	4.5
County School Facilities Fund	3.3	-	0.6	2.7
Special Reserve Fund for Capital Outlay Projects	13.7	12.9	15.0	11.6
Capital Project Fund for Blended Component Unit	0.1	0.1	-	0.2
Bond Interest and Redemption Fund	7.5	52.1	49.5	10.1
Total	\$ 143.4	\$ 252.0	\$ 273.8	\$ 121.6

The primary reasons for these increases/decreases are:

- The decrease of \$21.4 million in the Building Fund resulted from planned spending of Measure X funds and other building projects.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget to deal with changes brought about by anticipated increases or decreases in revenues and expenditures. The final budget revision to the adopted budget (estimated actuals) was adopted on June 26, 2014 (see page 64).

Significant revenue revisions made to the 2013-2014 budgets were due to revisions in various categorical programs.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2014

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2014, the District had \$381.5 million in a broad range of capital assets (net of depreciation), including land, buildings, and furniture and equipment. This amount represents a net increase (including additions, deductions, and depreciation) of just under \$10.4 million, or 2.8 percent, from last year (Table 5).

Table 5

(Amounts in millions)	Governmental Activities		Business-Type Activities		Total	
	2014	2013	2014	2013	2014	2013
Land and construction in process	\$ 50.4	\$ 46.9	\$ -	\$ -	\$ 50.4	\$ 46.9
Buildings and improvements	310.5	306.9	1.5	1.6	312.0	308.5

Total	\$ 379.4	\$ 369.1	\$ 2.1	\$ 2.0	\$ 381.5	\$ 371.1

Financing for these capital projects came from general obligation bonds, State construction match funding, certificates of participation, redevelopment revenues, and General Funds.

Long-Term Obligations

At the end of this year, the District had \$270.3 million in obligations versus \$272.0 million last year, a decrease of 0.6 percent. These obligations consisted of:

Table 6

(Amounts in millions)	Governmental Activities		Business-Type Activities		Total	
	2014	2013	2014	2013	2014	2013
General obligation bonds, net (Financed with property taxes)	\$ 205.0	\$ 203.8	\$ -	\$ -	\$ 205.0	\$ 203.8

Total	\$ 270.3	\$ 272.0	\$ -	\$ -	\$ 270.3	\$ 272.0

The District's general obligation current bond rating is "A1". The State limits the amount of general obligation debt that Districts can issue to 2.5 percent of the assessed value of all taxable property within the District's boundaries. The District's outstanding general obligation debt of \$205.9 million excluding capital appreciation and premium amounts is below the statutorily-imposed limit of \$193.0 million.

Other obligations include compensated absences payable and other long-term obligations. We present more detailed information regarding our long-term obligations in Note 8 of the financial statements.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2014

Total Net Change in Fund Balances - Governmental Funds **\$ (21,943,179)**
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures, however, for governmental activities, those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.

This is the amount by which capital outlays exceeds depreciation in the period.

Capital outlays	\$ 23,298,790
Depreciation expense	<u>(12,977,517)</u>

Net Expense Adjustment	10,321,273
------------------------	------------

Some of the capital assets acquired this year were financed with capital leases. The amount financed by the leases is reported in the governmental funds as a source of financing. On the other hand, the capital leases are not revenues in the Statement of Activities, but rather constitute long-term obligations in the Statement of Net Position. (5,581,051)

Contributions for postemployment benefits are recorded as an expense in the governmental funds when paid. However, the difference between the annual required contribution and the actual contribution made, if less, is recorded in the government-wide financial statements as an expense. The actual amount of the contribution was less than the annual required contribution. (1,886,270)

In the Statement of Activities, certain operating expenses - compensated absences (vacations) and special termination benefits (supplemental early retirement plan) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year, special termination benefits paid were more than the amounts added by \$1,423,795. Vacation used was less than the amounts earned by \$61,171. 1,362,624

Proceeds received from issuance of debt is a revenue in the governmental funds, but it increases long-term obligations in the Statement of Net Position and does not affect the Statement of Activities:

Sale of general obligation refunding bonds	(38,145,000)
2013 Lease refunding	(9,475,000)

The accompanying notes are an integral part of these financial statements.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES, Continued FOR THE YEAR ENDED JUNE 30, 2014

Governmental funds report the effect of premiums and deferred charges on an issuance and refunding when the debt is first issued, whereas the amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these related items:

Premium on issuance	\$ (2,698,187)	
Deferred amount on refunding	<u>2,699,088</u>	
Combined Adjustment		\$ 901

Repayment of bond principal is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Position and does not affect the Statement of Activities:

General obligation bonds	40,320,000
Certificates of participation	11,515,000
Capital lease obligations	6,308,270
2011 Lease refunding	445,000

Under the modified basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. This adjustment combines the net changes of the following balances:

Amortization of debt premium	2,897,511	
Amortization of deferred amount on refunding	<u>(1,349,544)</u>	
Combined Adjustment		1,547,967

Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The additional interest reported in the Statement of Activities is the result of two factors. First, accrued interest on the general obligation bonds and certificates of participation decreased by \$246,252, and second, \$3,435,880 of additional accumulated interest was accreted on the District's "capital appreciation" general obligation bonds.

(3,189,628)

An Internal Service Fund is used by the District's management to charge the costs of the dental and vision insurance program to the individual funds. The net revenue of the Internal Service Fund is reported with governmental activities.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The Coachella Valley Unified School District (the District) was organized on July 1, 1973, under the laws of the State of California. The District operates under a locally elected seven-member Board form of government and provides educational services to grades K-12 as mandated by the State and/or Federal agencies. The District operates fourteen K-6 schools, three 7-8 schools, one 7-12 high school, two four-year high schools, one continuation high school, an adult education extension program, eleven Head Start classrooms, one Early Head Start classroom, four State preschool classrooms, and eight childcare centers. There were no boundary changes during the year.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Coachella Valley Unified School District, this includes general operations, food service, and student related activities of the District.

Component Units

Component units are legally separate organizations for which the District is financially accountable. Component units may include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete. For financial reporting purposes, the component unit has a financial and operational relationship, which meets the reporting entity definition criteria of the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and thus is included in the financial statements of the District. The component unit, although a legally separate entity, is reported in the financial statements using the blended presentation method as if it were part of the District's operations because the governing board of the component unit is essentially the same as the governing board of the District and because their purpose is to acquire real property to be used for the benefit of the District.

The District has financial and operational relationships with the Coachella Valley Unified School District Property Acquisition Corporation (PAC) which meet the reporting entity definition criteria of GASB Statement No. 14, *The Financial Reporting Entity*, as component units of the District. Accordingly, the financial activities of the PAC have been included in the Capital Project Fund for Blended Component Units of the District's financial statements.

Other Related Entities

The District has approved a charter for the NOVA Academy Charter School pursuant to *Education Code* Section 47605. The NOVA Academy Charter School is operated by a separate governing board and is not considered a component unit of the District. The District receives revenue on behalf of the NOVA Academy Charter School which it passes on to the Charter. The NOVA Academy Charter School receives Federal and State funds for specific purposes that is subject to review and audit by grantor agencies.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary, and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

Major Governmental Funds

General Fund The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

Building Fund The Building Fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code* Section 15146) and may not be used for any purposes other than those for which the bonds were issued.

Non-Major Governmental Funds

Special Revenue Funds The Special Revenue funds are established to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities and that compose a substantial portion of the inflows of the fund. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

Adult Education Fund The Adult Education Fund is used to account separately for Federal, State, and local revenues for adult education programs and is to be expended for adult education purposes only.

Child Development Fund The Child Development Fund is used to account separately for Federal, State, and local revenues to operate child development programs and is to be used only for expenditures for the operation of child development programs.

Deferred Maintenance Fund The Deferred Maintenance Fund is used to account separately for State apportionments and the District's contributions for deferred maintenance purposes (*Education Code* Sections 17582-17587) and for items of maintenance approved by the State Allocation Board.

Capital Project Funds The Capital Project funds are used to account for and report financial resources that are restricted, committed, or assigned to the acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds).

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Capital Facilities Fund The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approving a development (*Education Code* Sections 17620-17626. Expenditures are restricted to the purposes specified in *Government Code* Sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 66006).

County School Facilities Fund The County School Facilities Fund is established pursuant to *Education Code* Section 17070.43 to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), or the 2004 State School Facilities Fund (Proposition 55) authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code* Section 17070 et seq.).

Special Reserve Fund for Capital Outlay Projects The Special Reserve Fund for Capital Outlay Projects exists primarily to provide for the accumulation of General Fund and redevelopment agency funds for the City of La Quinta, Riverside County, and the City of Coachella monies for capital outlay purposes (*Education Code* Section 42840). In addition, the capital project and debt service activity for the 2003 Certificates of Participation (School Financing Project and East Coachella School Facilities Project) and the 2006 and 2006B Certificates of Participation is accounted for in the Special Reserve Fund for Capital Outlay Projects.

Capital Project Fund for Blended Component Units This fund is used to account for the acquisition of real property financed by the Coachella Valley Unified School District Property Acquisition Corporation which is considered a blended component unit of the LEA under Generally Accepted Accounting Principles (GAAP).

Debt Service Funds The Debt Service funds are used to account for the accumulation of restricted, committed, or assigned resources for and the payment of principal and interest on general long-term obligations.

Bond Interest and Redemption Fund The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a District (*Education Code* Sections 15125-15262).

Proprietary Funds Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. The District applies all GASB pronouncements, as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Proprietary funds are classified as enterprise or internal service. The District has the following proprietary funds:

Enterprise Fund Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The only enterprise fund of the District accounts for the financial transactions related to the Cafeteria Fund food service program of the District.

Internal Service Fund Internal service funds may be used to account for any activity for which services are provided to other funds of the District on a cost-reimbursement basis. The District operates a dental and vision program that is accounted for in an internal service fund.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Fiduciary Funds Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's agency fund accounts for student body activities (ASB).

Basis of Accounting - Measurement Focus

Government-Wide Financial Statements The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each governmental program, and excludes fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the Statement of Activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net position are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities result from special revenue funds and the restrictions on their use.

Fund Financial Statements Fund financial statements report detailed information about the District. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

NOTES TO FINANCIAL STATEMENTS

Governmental Funds All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for the governmental funds on a modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Proprietary Funds Proprietary funds are accounted for using a flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net position. The statement of changes in fund net position presents increases (revenues) and decreases (expenses) in net total assets. The Statement of Cash Flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

Fiduciary Funds Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide financial statements because they do not represent resources of the District.

Revenues – Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Generally, available is defined as collectible within 90 days. However, to achieve comparability of reporting among California districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to state-aid apportionments, the California Department of Education has defined available for districts as collectible within one year. The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Unearned Revenue Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the combined balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met, are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the entity-wide statements.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

Investments

Investments held at June 30, 2014, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

Stores Inventories

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the weighted average basis. The costs of inventory items are recorded as expenditures in the governmental type funds and expenses in the proprietary type funds when used.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Capital Assets and Depreciation

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred. Interest incurred during the construction of capital assets utilized by the enterprise fund is also capitalized.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide financial statement of net position. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at estimated fair market value on the date donated.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets are the same as those used for the capital assets of governmental funds.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 20 to 50 years; improvements/infrastructure, 5 to 50 years; equipment, 2 to 15 years.

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Compensated Absences

Compensated absences are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide Statement of Net Position. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year end that have not yet been paid with expendable available financial resources. These amounts are reported in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. Premiums and discounts on issuance of long-term obligations, as well as issuance costs (deferred charges), are deferred and amortized over the life of the related debt using the effective interest method. Long-term obligations payable are reported net of the applicable premium or discount.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

However, claims and judgments, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, certificates of participation and capital leases are recognized as liabilities in the governmental fund financial statements when due.

Debt Premiums and Discounts

In the government-wide financial statements and in the proprietary fund type financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Debt premiums and discounts, as well as issuance costs, related to prepaid insurance costs are amortized over the life of the bonds using the straight-line method.

In governmental fund financial statements, bond premiums and discounts, as well as debt issuance costs are recognized in the current period. The face amount of the debt is reported as other financing sources. Premiums received on debt issuance are also reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as debt service expenditures.

Fund Balances - Governmental Funds

As of June 30, 2014, fund balances of the governmental funds are classified as follows:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed - amounts that can be used only for specific purposes determined by a formal action of the governing board. The governing board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through resolutions or other action as approved by the governing board.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer may assign amounts for specific purposes.

Unassigned - all other spendable amounts.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Spending Order Policy

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

Minimum Fund Balance Policy

The governing board adopted a minimum fund balance policy for the General Fund in order to protect the District against revenue shortfalls or unpredicted on-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than three percent of General Fund expenditures and other financing uses.

Net Position

Net position represents the difference between assets and liabilities. Net position net of investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report net position, restricted by enabling legislation of \$38,540,190.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are food sales. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Interfund Activity

Transfers between governmental and business-type activities in the government-wide financial statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Interfund transfers are eliminated in the governmental and business-type activities columns of the statement of activities, except for the net residual amounts transferred between governmental and business-type activities.

NOTES TO FINANCIAL STATEMENTS

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

The budgetary process is prescribed by provisions of the California Education Code and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1 of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For budget purposes, on-behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Riverside bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

Change in Accounting Principles

In March 2012, the GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Concepts Statement No. 4, *Elements of Financial Statements*, introduced and defined the elements included in financial statements, including deferred outflows of resources and deferred inflows of resources. In addition, Concepts Statement 4 provides that reporting a deferred outflow of resources or a deferred inflow of resources should be limited to those instances identified by the Board in authoritative pronouncements that are established after applicable due process. Prior to the issuance of this Statement, only two such pronouncements have been issued. Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, requires the reporting of a deferred outflow of resources or a deferred inflow of resources for the changes in fair value of hedging derivative instruments, and Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*, requires a deferred inflow of resources to be reported by a transferor government in a qualifying service concession arrangement. This Statement amends the financial statement element classification of certain items previously reported as assets and liabilities to be consistent with the definitions in Concepts Statement No. 4. This Statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources, such as changes in the determination of the major fund calculations and limiting the use of the term *deferred* in financial statement presentations.

The District has implemented the provisions of this Statement for the year ended June 30, 2014.

As the result of implementing GASB Statement No. 65, the District has restated the beginning net position in the government-wide Statement of Net Position, effectively decreasing net position as of July 1, 2013, by \$3,165,006. The decrease results from no longer deferring and amortizing bond issuance costs.

New Accounting Pronouncements

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27*. The primary objective of this Statement is to improve accounting and financial reporting by State and local governments for pensions. It also improves information provided by State and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements No. 27 and No. 50 remain applicable for pensions that are not covered by the scope of this Statement.

The scope of this Statement addresses accounting and financial reporting for pensions that are provided to the employees of State and local governmental employers through pension plans that are administered through trusts that have the following characteristics:

- Contributions from employers and non-employer contributing entities to the pension plan and earnings on those contributions are irrevocable.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

- Pension plan assets are dedicated to providing pensions to plan members in accordance with the benefit terms.
- Pension plan assets are legally protected from the creditors of employers, non-employer contributing entities, and the pension plan administrator. If the plan is a defined benefit pension plan, plan assets also are legally protected from creditors of the plan members.

This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. For defined benefit pensions, this Statement identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service.

Note disclosure and required supplementary information requirements about pensions also are addressed. Distinctions are made regarding the particular requirements for employers based on the number of employers whose employees are provided with pensions through the pension plan and whether pension obligations and pension plan assets are shared. Employers are classified in one of the following categories for purposes of this Statement:

- Single employers are those whose employees are provided with defined benefit pensions through single-employer pension plans—pension plans in which pensions are provided to the employees of only one employer (as defined in this Statement).
- Agent employers are those whose employees are provided with defined benefit pensions through agent multiple-employer pension plans—pension plans in which plan assets are pooled for investment purposes but separate accounts are maintained for each individual employer so that each employer's share of the pooled assets is legally available to pay the benefits of only its employees.
- Cost-sharing employers are those whose employees are provided with defined benefit pensions through cost-sharing multiple-employer pension plans—pension plans in which the pension obligations to the employees of more than one employer are pooled and plan assets can be used to pay the benefits of the employees of any employer that provides pensions through the pension plan.

In addition, this Statement details the recognition and disclosure requirements for employers with liabilities (payables) to a defined benefit pension plan and for employers whose employees are provided with defined contribution pensions. This Statement also addresses circumstances in which a non-employer entity has a legal requirement to make contributions directly to a pension plan.

This Statement is effective for fiscal years beginning after June 15, 2014. Early implementation is encouraged.

In November 2013, the GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date — An Amendment of GASB Statement No. 68*. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a State or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Statement No. 68 requires a State or local government employer (or nonemployer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a State or local government employer or nonemployer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement No. 68 requires that the government recognize its contribution as a deferred outflow of resources. In addition, Statement No. 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a State or local government employer or nonemployer contributing entity that arise from other types of events. At transition to Statement No. 68, if it is not practical for an employer or nonemployer contributing entity to determine the amounts of *all* deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement No. 68 required that beginning balances for deferred outflows of resources and deferred inflows of resources not be reported.

Consequently, if it is not practical to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, contributions made after the measurement date of the beginning net pension liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of an employer or nonemployer contributing entity's beginning net position and expense in the initial period of implementation.

This Statement amends paragraph 137 of Statement No. 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement No. 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts.

The provisions of this Statement are required to be applied simultaneously with the provisions of Statement No. 68.

Summary of Deposits and Investments

Deposits and investments as of June 30, 2014, are classified in the accompanying financial statements as follows:

Governmental activities	\$ 107,509,216
Business-type activities	7,966,339
Fiduciary funds	556,387
Total Deposits and Investments	<u>\$ 116,031,942</u>

Deposits and investments as of June 30, 2014, consisted of the following:

Cash on hand and in banks	\$ 991,104
Cash in revolving	52,025
Investments	114,988,813
Total Deposits and Investments	<u>\$ 116,031,942</u>

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by investing in the Riverside County Investment Pool and purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Specific Identification

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

<u>Investment Type</u>	<u>Amortized Cost</u>	<u>Fair Value</u>	<u>Average Maturity in Days and Maturity Date</u>
Riverside County Investment Pool	\$ 112,819,898	\$ 112,760,106	500
First American Treasury Obligations - Money Market Mutual Funds	89,982	89,982	39
FSA Master Capital Management Investment Agreement	2,078,933	2,078,933	8/28/2035
Total	<u>\$ 114,988,813</u>	<u>\$ 114,929,021</u>	

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. While the District's investment in the Riverside County Investment Pool is not required to be rated, as of year-end it reflected an Aaa rating by Moody's Investors Service. Likewise, the First American Treasury Obligations Money Market Mutual Funds reflected an Aaa rating by Moody's Investors Service. The Investment Agreement was not rated, nor is required to be rated.

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2014, the District's bank balance of \$1,100,543 was insured and/or collateralized with securities held by the pledging financial institution's trust department or agent, but not in the name of the District.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2014

2014 General Obligation Refunding Bonds

On January 23, 2014, the District issued the 2014 General Obligation Refunding Bonds in the amount of \$38,145,000. The bonds have a final maturity to occur on August 1, 2028, with interest rates from 1.50 to 5.00 percent. The net proceeds of \$40,843,187 (representing the principal amount of \$38,145,000, plus premium on issuance of \$2,698,187) from the issuance were used to advance refund the District's outstanding 2005 General Obligation Bonds, Series A and to pay the costs of issuance associated with the refunding bonds, with the prepayment to occur on August 1, 2015. Amounts paid to the refunded bond escrow agent in excess of outstanding debt at the time of payment are recorded as deferred charges on refunding on the statement of net assets and are amortized to interest expense over the life of the liability. The refunding resulted in a cumulative cash flow saving of \$2,699,088 over the life of the new debt and an economic gain of \$2,001,426 based on the difference between the present value of the existing debt service requirements and the new debt service requirements discounted at 3.294 percent. At June 30, 2014, the principal balance outstanding was \$38,145,000. Unamortized premium received on issuance of the bonds amounted to \$2,505,459 as of June 30, 2014.

Accumulated Unpaid Employee Vacation

The long-term portion of accumulated unpaid employee vacation for the District at June 30, 2014, amounted to \$1,798,037.

Claims Liability

Liabilities associated with health and welfare claims are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are based upon estimated ultimate cost of settling the claims, considering recent claim settlement trends including the frequency and amount of payouts and other economic and social factors. The liability for health and welfare claims is reported in the Internal Service Fund. The outstanding claims liability at June 30, 2014, amounted to \$381,182.

Supplemental Early Retirement Plans (SERP)

The District has offered supplemental early retirement plans (SERP) to its certificated and classified employees as part of the union contracts since 1984. Eligible employees who meet specific criteria for participation in SERP are provided an annuity to supplement the retirement benefits they are entitled to, through their respective retirement systems. The annuities offered to the employees are paid over a five-year period. Currently, 154 employees who have retired after 2003 have elected to receive these annuities, as purchased from United of Omaha and Principal Life Insurance.

2012 Lease Refinancing

On July 5, 2011, the District entered into a lease agreement with Banc of America Public Capital Corporation to advance funds of \$12,830,000. The lease refinancing has a final maturity of March 1, 2026, with an interest rate of 5.00 percent. The net proceeds of \$12,632,160 from the issuance (issuance of \$12,830,000 net of costs incurred on issuance of \$197,840) were used to current refund the District's outstanding 2006 Certificates of Participation (2006 School Financing Project), with the prepayment occurring July 7, 2011. Contributions from the 2006 Certificates of Participation reserve fund resulted in additional funds of \$1,271,025 placed with an escrow agent to satisfy prepayment of the remaining balance of the 2006 Certificates of Participation. The refinancing resulted in a cumulative cash flow increase of \$387,107 over the life of the new debt and an economic loss of \$6,312,170 based on the difference between the present value of the existing debt service requirements and the new debt service requirements discounted at 5.00 percent. At June 30, 2014, the principal balance outstanding was \$11,755,000.

NOTE 10 - POSTEMPLOYMENT HEALTH CARE PLAN AND OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION

Plan Description

The Postemployment Benefits Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the Coachella Valley Unified School District. The Plan provides medical and dental insurance benefits to eligible retirees and their spouses. Membership of the Plan consists of 105 retirees and beneficiaries currently receiving benefits, and 1,665 active Plan members.

Contribution Information

The contribution requirements of plan members and the District are established and may be amended by the District and the Coachella Valley Teachers Association (CTA), the local California Service Employees Association (CSEA), and unrepresented groups. The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2013-2014, the District contributed \$2,958,111 to the Plan, all of which was used for current premiums.

Annual OPEB Cost and Net OPEB Obligation

The District's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial accrued liabilities (UAAL) (or funding excess) over a period not to exceed 30 years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the Plan:

Annual required contribution	\$ 5,022,647
Interest on net OPEB obligation	215,536
Adjustment to annual required contribution	<u>(393,802)</u>
Annual OPEB cost (expense)	4,844,381
Contributions made	<u>(2,958,111)</u>
Increase in net OPEB obligation	1,886,270
Net OPEB obligation, beginning of year	<u>6,365,889</u>
Net OPEB obligation, end of year	<u><u>\$ 8,252,159</u></u>

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

**NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014**

Trend Information

Trend information for annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation is as follows:

Year Ended June 30,	Annual OPEB Cost	Actual Employer Contribution	Percentage Contributed	Net OPEB Obligation
2012	\$ 3,384,316	\$ 2,322,547	69%	\$ 4,310,727
2013	4,971,516	2,916,354	59%	6,365,889
2014	4,844,381	2,958,111	61%	8,252,159

Funded Status and Funding Progress

A schedule of funding progress as of the most recent actuarial valuation is as follows:

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Liability (AAL) - Unprojected Unit Credit (b)	Unfunded AAL (UAAL) (b - a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ([b - a] / c)
October 1, 2012	\$ -	\$ 20,192,972	\$ 20,192,972	0%	\$ 103,343,722	20%

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, investment returns, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

In the October 1, 2012, actuarial valuation, the entry age normal method was used. Currently, the District does not set aside assets in an irrevocable employee benefit trust. The assumptions include a five percent discount rate based on employer assets that are not restricted for other purposes and are expected to be used to finance benefit payments. Healthcare cost trend rates reflected an ultimate rate of four percent. The UAAL is being amortized at a level dollar method. The remaining amortization period at June 30, 2014, was 24 years.

NOTE 11 - RISK MANAGEMENT

Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. During the fiscal year ending June 30, 2014, the District participated in the Riverside Schools' Insurance Authority (RSIA) public entity risk pool for property and liability insurance coverage. Settled claims have not exceeded the insured coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

For fiscal year 2014, the District participated in the Riverside Schools Risk Management Authority (RSRMA) public entity risk pool. The intent of RSRMA is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in RSRMA. The workers' compensation experience of the participating districts is calculated and applied to a common premium rate. Participation in RSRMA is limited to local educational agencies that can meet RSRMA selection criteria.

Employee Medical Benefits

The District purchases medical insurance from commercial insurance companies. Dental and vision benefits are self-insured by the District and accounted for in a separate internal service fund for self-insurance.

Claims Liabilities

The District records an estimated liability for dental and vision claims against the District. Claims liabilities are based on estimates of the ultimate cost of reported claims (including future claim adjustment expenses) and an estimate for claims incurred, but not reported based on historical experience.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

**NOTES TO FINANCIAL STATEMENTS

Unpaid Claims Liabilities

The fund establishes a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claim adjustment expenses. The following represent the changes in approximate aggregate liabilities for the District from July 1, 2012 to June 30, 2014:

	Dental and Vision
Liability Balance, July 1, 2012	\$ 379,691

NOTE 12 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer retirement plans maintained by agencies of the State of California. Certificated employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

CalSTRS

Plan Description

The District contributes to CalSTRS; a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalSTRS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to beneficiaries. As a result of the Public Employee Pension Reform Act of 2013 (PEPRA), changes have been made to the defined benefit pension plan effective January 1, 2013. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law. CalSTRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalSTRS annual financial report may be obtained from CalSTRS, 100 Waterfront Place, West Sacramento, CA 95605.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

Funding Policy

Due to the implementation of the Public Employee Pension Reform Act of 2013 (PEPRA), new members must pay at least 50 percent of the normal costs of the plan, which can fluctuate from year to year. For 2013-2014, the required contribution rate for new members is 8.0 percent. "Classic" plan members are also required to contribute 8.0 percent of their salary. The District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by CalSTRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2013-2014 was 8.25 percent of annual payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalSTRS for the fiscal years ending June 30, 2014, 2013, and 2012, were \$6,193,282, \$6,171,712, and \$5,874,778, respectively, and equal 100 percent of the required contributions for each year.

CalPERS

Plan Description

The District contributes to the School Employer Pool under CalPERS; a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and survivor benefits to plan members and beneficiaries. As a result of the Public Employee Pension Reform Act of 2013 (PEPRA), changes have been made to the defined benefit pension plan effective January 1, 2013. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Laws. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS' annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95811.

Funding Policy

As a result of the implementation of the Public Employee Pension Reform Act of 2013 (PEPRA), new members must pay at least 50 percent of the normal costs of the plan, which can fluctuate from year to year. For 2013-2014, the normal cost is 11.85 percent, which rounds to a 6.0 percent contribution rate. "Classic" plan members continue to contribute 7.0 percent. The District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2013-2014 was 11.442 percent of covered payroll. The contribution requirements of the plan members are established by State statute. The District's contributions to CalPERS for the fiscal years ending June 30, 2014, 2013, and 2012, were \$3,228,667, \$3,264,600, and \$2,891,616, respectively, and equal 100 percent of the required contributions for each year.

Alternative Retirement Program

The District also contributes to the Accumulation Program for Part-time and Limited Service Employees (APPLE), which is a defined contribution pension plan. A defined contribution pension plan provides pension benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account, the returns earned on investments of those contributions, and forfeitures of other participants' benefits that may be allocated to such participant's account.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2014

As established by Federal law, all public sector employees who are not members of their employer's existing retirement system (CalSTRS or CalPERS) must be covered by social security or an alternative plan. The District has elected to use APPLE as its alternative plan. Contributions made by the District and an employee vest immediately. The District contributes 3.75 percent of an employee's gross earnings. An employee is required to contribute 3.75 percent of his or her gross earnings to the pension plan.

During the year, the District's required and actual contributions amounted to \$76,398, which was 3.75 percent of its current year covered payroll. Employees required and actual contributions amounted to \$76,398, which was 3.75 percent of the covered payroll.

On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of \$3,945,698 (5.541 percent of annual payroll). Contributions are no longer appropriated in the annual *Budget Act* for the legislatively mandated benefits to CalPERS. Therefore, there is no on behalf contribution rate for CalPERS. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements. On behalf payments have been excluded from the calculation of available reserves, and have not been included in the budgeted amounts reported in the *General Fund - Budgetary Comparison Schedule*.

NOTE 13 - COMMITMENTS AND CONTINGENCIES

Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2014.

Litigation

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2014.

NOTE 14 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS

The District is a member of the Riverside Schools Insurance Authority (RSIA) and the Riverside Schools Risk Management Authority (RSRMA) public entity risk pools. The District pays an annual premium to each entity for its workers' compensation, and property liability coverage. The relationships between the District and the pools are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the District are included in these statements. Audited financial statements are available from the respective entities.

During the year ended June 30, 2014, the District made payments of \$966,153 and \$4,065,645 to RSIA and RSRMA, respectively, for services received.

NOTE 15 - RESTATEMENT OF PRIOR YEAR NET POSITION

The District adopted GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, in the current year. As a result, the effect on the current fiscal year is as follows:

Statement of Net Position	
Fund Balance - Beginning	\$ 242,220,899
Restatement - cost of issuance	(3,165,006)
Net Position - Beginning as Restated	<u>\$ 239,055,893</u>

The General Fund balance has decreased by \$12,406,354 over the past two years. The fiscal year 2014-2015 budget projects a further decrease of \$3,870,468 (23 percent). For a district this size, the State recommends available reserves of at least three percent of total General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating deficits in two of the past three years and anticipates incurring an operating deficit during the 2014-2015 fiscal year. Total long-term obligations have increased by \$82,173,709 over the past two years.

Average daily attendance has increased by 180 over the past two years. However, a decline of 25 ADA is anticipated during fiscal year 2014-2015.

¹ Budget 2015 is included for analytical purposes only and has not been subjected to audit.

² Available reserves consist of all unassigned fund balances including all amounts reserved for economic uncertainties contained with the General Fund.

³ On behalf payments of \$3,945,698, \$3,734,581, and \$3,715,800, have been excluded from the calculation of available reserves for the fiscal years ending June 30, 2014, 2013, and 2012, respectively.

NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2014

NOTE 1 - PURPOSE OF SCHEDULES

Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the United States Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances and in Business-Type Activities, and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts consist of Medi-Cal Billing Option funds that in the current period were recorded as revenues but were unspent. These unspent balances have been restricted in the current period.

	<u>CFDA Number</u>	<u>Amount</u>
Total Federal Revenues from the Statement of Revenues, Expenditures, and Changes in Fund Balances and Business-Type Activities:		\$ 31,884,440
Medi-Cal Billing Option	93.778	<u>(140,028)</u>
Total Schedule of Expenditures of Federal Awards		<u>\$ 31,744,412</u>

Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated, members of the governing board, and members of the administration.

Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at the 1986-87 requirements, as required by *Education Code* Section 46201.

Reconciliation of Annual Financial and Budget Report With Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

Schedule of Financial Trends and Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

Schedule of Charter Schools

This schedule lists all Charter Schools chartered by the District, and displays information for each Charter School on whether or not the Charter School is included in the District audit.

Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures, and Changes in Fund Balances is included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

General Fund Selected Financial Information

This schedule provides a comparison of revenues and expenditures as a percentage of total revenue for the General Fund for the past three years.

Cafeteria Fund Selected Financial Information

This schedule provides a comparison of revenues and expenditures as a percentage of total revenue for the cafeteria fund for the past three years.

INDEPENDENT AUDITOR'S REPORTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Governing Board
Coachella Valley Unified School District
Thermal, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Coachella Valley Unified School District (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Coachella Valley Unified School District's basic financial statements, and have issued our report thereon dated December 9, 2014.

Emphasis of Matter - Change in Accounting Principles

As discussed in Notes 1 and 15 to the financial statements, the District has elected to change its method of accounting for cost of debt issuance as prescribed by GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Coachella Valley Unified School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Coachella Valley Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Coachella Valley Unified School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Coachella Valley Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Coachella Valley Unified School District in a separate letter dated December 9, 2014.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR
EACH MAJOR PROGRAM AND REPORT ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

Governing Board
Coachella Valley Unified School District
Thermal, California

Report on Compliance for Each Major Federal Program

We have audited Coachella Valley Unified School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Coachella Valley Unified School District's major Federal programs for the year ended June 30, 2014. Coachella Valley Unified School District's major Federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Coachella Valley Unified School District's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about Coachella Valley Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of Coachella Valley Unified School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Coachella Valley Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the year ended June 30, 2014.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item 2014-001. Our opinion on each major Federal program is not modified with respect to these matters.

Coachella Valley Unified School District's response to the noncompliance findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. Coachella Valley Unified School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of Coachella Valley Unified School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Coachella Valley Unified School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Coachella Valley Unified School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items 2014-001 that we consider to be significant deficiencies.

Coachella Valley Unified School District's response to the internal control over compliance findings identified in our audit is described in the accompanying, Schedule of Findings and Questioned Costs. Coachella Valley Unified School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Governing Board
Coachella Valley Unified School District
Thermal, California

Report on State Compliance

We have audited Coachella Valley Unified School District's compliance with the types of compliance requirements as identified in the *Standards and Procedures for Audit of California K-12 Local Educational Agencies 2013-2014* that could have a direct and material effect on each of the Coachella Valley Unified School District's State government programs as noted below for the year ended June 30, 2014.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its State's programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance of each of the Coachella Valley Unified School District's State programs based on our audit of the types of compliance requirements referred to above. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Standards and Procedures for Audits of California K-12 Local Educational Agencies 2013-2014*. These standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the applicable government programs noted below. An audit includes examining, on a test basis, evidence about Coachella Valley Unified School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions. Our audit does not provide a legal determination of Coachella Valley Unified School District's compliance with those requirements.

Unmodified Opinion

In our opinion, Coachella Valley Unified School District complied, in all material respects, with the compliance requirements referred to above that are applicable to the government programs noted below that were audited for the year ended June 30, 2014.

In connection with the audit referred to above, we selected and tested transactions and records to determine the Coachella Valley Unified School District's compliance with the State laws and regulations applicable to the following items:

FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2014

The following findings represent significant deficiencies, and/or material instances of noncompliance including questioned costs that are required to be reported by OMB Circular A-133. The findings have been coded as follows:

	<u>Five Digit Code</u>	<u>AB 3627 Finding Type</u>
	50000	Federal Compliance
2014-001	50000	

Program Name: Title I, Part A
CFDA Number: 84.010
Pass-Through Entity: California Department of Education
Federal Agency: U.S. Department of Education

FEDERAL COMPLIANCE – TITLE I, PART A

Payroll – Certificated Substitutes

Criteria or Specific Requirements

Any Teacher hired to teach a core academic subject and who work in a program supported with Title I, Part A funds are required to be highly qualified as defined in 34 CFR Section 200.56. In addition, it is vital that substitutes be able to perform their duties well. Although short-term substitute teachers do not need to meet the highly qualified teacher requirements under *No Child Left Behind*, according to the U.S. Department of Education, it is strongly recommended that a long-term substitute teacher meet the requirements for a highly qualified teacher as defined in the law.

Condition

The District charged \$73,465 to substitute charges during the 2013-2014 fiscal year. Currently, the District does not have a procedure in place to differentiate between long-term and short-term substitute charges. Since there is no distinction, the district charged unallowable costs to the program.

Questioned Costs

A total of \$73,465 in questioned costs was identified as a result of the condition identified above.

Context

The condition was identified through the course of the auditor's review of the District's employee attendance monitoring procedures; review of payroll records and through inquiry with the District's Payroll Department personnel.

COACHELLA VALLEY UNIFIED SCHOOL DISTRICT

FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2014

Effect

The District charged unallowed costs to Title I, Part A for the fiscal year of 2013-2014. The identified questioned costs of \$73,465 must be reported as a finding of questioned costs for Title I, Part A.

Cause

The District does not have a control in place to properly approve substitutes prior to subbing in the classroom. As a result, the district is unable to ensure long term substitutes meet the definition of a highly qualified teacher.

Recommendation

It is recommended the district transfer out the amounts that were charged to the Federal program for the certificated substitutes. District policy requires that all employees, substitutes, and extra duty assignments are being reviewed and pre-approved by all necessary personnel prior to working. It is recommended the district enforce the current policy over the approval for certificated substitutes including a review of highly qualified teacher requirements for any long-term substitutes hired to teach under the program. All requests for substitute teachers must flow through the approval path established by the district which is determined by the account code being charged. In addition, the District needs to implement procedures to identify long-term subs.

Corrective Action Plan

In previous years the District had an approval process in place through School Stream. This process resulted in process duplication due to having to submit for a substitute through School Stream and Sub-finder. An unintended result of trying to eliminate the duplication and waste of resources was that the approval process was eliminated. We are currently working with Sub-finder to create an approval process that does not cause duplication. If that cannot be done, then we will go back to our previous process that caused duplication, but ensured approval.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2014

<u>Five Digit Code</u>	<u>AB 3627 Finding Type</u>
40000	State Compliance

After School Education and Safety Program (ASES) – Administrative Costs

2013-1 40000

Criteria or Specific Requirements

According to *Education Code* Section 19846.1(c)(2)(B), the District participating in the ASES program must monitor usage of the State funding and ensure that no more than 15 percent of the State funding was utilized for administrative costs, including indirect costs charged to the program. Adequate documentation that supports this verification must be maintained by the District that documents that it is within compliance of this regulation.

There appears to be an issue in which the District's administrative costs, including indirect costs charged to the program, has exceeded the threshold of 15 percent of the total program expenditure. The District has a program in place for an employee who is responsible for monitoring expenditures regarding the ASES program. However, during the review of the expenditure detail, it was noted that approximately 17 percent of the funding was expended for administrative costs and indirect costs. Calculating the allowable dollar amount with the 15 percent threshold, the auditor noted that the District exceeded this threshold by \$61,771.

The condition identified was determined through review of expenditure detail of resource code 6010. The auditor reviewed expenditures including functions 2150 and 2700 for administrative cost. In addition, auditor reviewed object code 7310 for indirect cost charged to the program.

As a result of our testing, the District does not appear to be in compliance with *Education Code* Section 19846.1(c)(2)(B). The District's expenditures of administrative and indirect costs exceeded the threshold of the allowable 15 percent administrative and indirect costs out of the total program expenditure.

It appears that the condition identified has materialized as a result of the District not closely monitoring expenditures of administrative costs.

Recommendation

The District should strive to improve implemented procedures to better monitor the expenditures in the ASES program. The District should communicate to the sites the importance of following the established procedures to ensure compliance with program requirements.

In planning and performing our audit of the financial statements of Coachella Valley Unified School District (the District) for the year ended June 30, 2014, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit we noted matters that are opportunities for strengthening internal controls and operating efficiency. The following items represent conditions noted by our audit that we consider important enough to bring to your attention. This letter does not affect our report dated December 9, 2014, on the financial statements of Coachella Valley Unified School District.

INTERNAL CONTROLS

Credit Cards

Observation

The District was unable to provide supporting documentation for transactions made in the November, December and January American Express statements for one credit card. In addition, no approvals were obtained prior to the purchases taking place. This was also noted in the prior year for the same card holder.

Recommendation

The district should request all supporting documentation relating to the credit card charges be forwarded to the District in a timely manner and ensure all charges are properly preapproved. In addition, the District should develop formal procedures for individuals who fail to follow the District's policy.

Cash Receipts

Observation

Deposits are not being made timely by the site bookkeeper. This can result in large cash balances being maintained at the site which severely decreases the safeguarding of the asset. We noted 10 out of 16 instances were deposits ranged from, 10 to 24 days after being receipted.

Recommendation

At a minimum, deposits should be made weekly to minimize the amount of cash held at the site. During weeks of high cash activity there may be a need to make more than one deposit. The District should establish guidelines for this procedure including the maximum cash on hand that should be maintained at the site. The ultimate responsibility, however, will reside with the site ASB Advisor to make the deposits timely.

La Familia High School

Observation

Cash is not documented as being counted in the presence of multiple personnel.

Recommendation

A key control procedure to ensure that all monies are properly counted and safeguarded, is to count all monies with at least two people. Once the monies have been counted collectively by the individuals, they should show proper proof of counting the monies by signing off on the receipt of monies.

Observation

Auditor noted that the site is currently not completing the Analysis - Gains and Loss portion of the Revenue Potential Forms. Revenue potential forms supply an element of internal controls without which it is difficult to determine the success of a fundraiser and to track money as it is spent and received.

Recommendation

As the revenue potential form is a vital internal control tool, it should be used to document revenues, expenditures, potential revenue, and actual revenue. This will help identify any significant differences between anticipated profits and actual profits/ losses and possible potential misappropriation of ASB funds. Analysis of actual profit/ loss also allows the site to continue those fundraisers which generate profit and modify or eliminate those which generate losses.

Observation

Monies deposited to the ASB clerk are turned in with a cash count sheet. However, there is no supporting documentation that substantiates the monies being deposit.

Recommendation

A key control procedure to ensure that all monies collected by teachers and advisors are included in the deposit forwarded to the bookkeeper is to receipt all monies and total the receipts issued since the last deposit to ensure that the cash equals the total of the receipts. Obviously, if all monies are not receipted, this control does not work; the cash would exceed the issued receipts total. Upon receipt of the cash, receipt carbons, and total receipts issued recap, the clerk should verify the information and ensure that the sub-receipts are in chronological and numeric order. Once verified, the clerk should issue a receipt back to the teacher or advisor which would equal the verified cash and receipts issued by the teacher or advisor. For fundraisers auditor recommends that the site find a feasible way to document what items are being sold, how much, and price so that it may be reconciled to the cash collection form.

Observation

A master ticket log is not being used by the sites to account for all tickets on hand and used during the year. In addition, ticket sales recap form is not prepared which calculates the number of tickets sold and the total revenue generated based on the selling price per ticket.

Recommendation

A master ticket log should be maintained which notes the type of ticket, color, and current beginning ticket number in the role. The tickets should be safeguarded as if they were cash because stolen tickets would equate to lost revenue for the site because these tickets could be presented for admission rather than an individual paying for admission. When ticket rolls are issued, they should be logged out noting the beginning ticket number in the roll and to whom the roll was issued. When the ticket sales recap form is returned, the form should be reconciled to the log.

In our testing of fundraisers, we noted monies deposited to the ASB clerk are turned in with a cash count sheet. However, there is no supporting documentation that substantiates the monies being deposit.

Observation

During the testing of "Daily Sales" reports for the student store, auditor noted two instances where the site did not indicate a reason for an overage or shortage.

Recommendation

To enhance the accountability and accounting of the student store activity, a reason for differences should be indicated on Daily Sales report. Daily cash shortages/overages can be attributable to incorrect change being handed out, misplaced funds, or theft. If differences are of a substantial amount, an investigation should be conducted to try and pinpoint the reason.

We will review the status of the current year comments during our next audit engagement.
